1. UNIGRANULATOR – RAPID MIXER GRANULATOR (250 ML, 1LIT, 3LIT, 5LIT)

| Sr. No | Item                              | Description                                                                                                                                                                                                                                                                                                                                                          |
|--------|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.     | <b>Capacity</b>                   | <p><b>Interchangeable bowls with gross capacity of 250ml, 1 liter, 3 liters, 5 liters</b></p> <p>Capacity in gm = Gross volume x 0.7 (Fill volume) x 0.5gm/cc (Bulk Density)</p>                                                                                                                                                                                     |
| 2.     | <b>General Description</b>        | <p><b><i>Operations – Dry / Wet mixing, Lubrication / Granulation of powder.</i></b></p> <p>Mixing Bowl and Cover: S.S. 316 bowl design in three sections i.e. Flat bottom cylindrical mid portion and conical top portion for efficient mixing operation &amp; provided with counter balanced lid. Lid provided with vents, view ports &amp; charging openings.</p> |
| 3.     | <b>Main Impeller &amp; Drive:</b> | <p>The main impeller consists of synchronous motor. The impeller is designed to provide mixing at the bottom and at the center of the bowl and is driven through a specially designed bearing housing. That prevents leakage of powder from bottom entry and leads to longer life of gear box.</p>                                                                   |
| 4.     | <b>Chopper</b>                    | <p>The chopper drive consists of synchronous motor. The motor shaft is of SS and the chopper has specially designed 4 blade SS impellers. The shaft is integral with the motor. The assembly mounted horizontally into the bowl.</p>                                                                                                                                 |
| 5.     | <b>Discharge</b>                  | <p>The discharge of the machine shall be by lifting the bowl manually.</p>                                                                                                                                                                                                                                                                                           |
| 6.     | <b>Mounting</b>                   | <p>A sturdy S.S channel frame is used to house the drive assembly at the bottom. The bowl is mounted on the top.</p>                                                                                                                                                                                                                                                 |
| 7.     | <b>Control Panel</b>              | <p>Main panel consists of all prewired connections and it has only to be connected to the electric supply. The circuit consists of MCCB, relays and contactor in series. Ample overload protection is provided by the MCCB and the relay. Wires coming out of the connections are numbered for easy recognition.</p>                                                 |

**PRICE : UNIGRANULATOR: RAPID MIXER GRANULATOR**

| S. No. | Price                             | Description                                                                                                                                                                                                                                                                                                                                                                                                            |
|--------|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.     | Rs. 12,50,000/-                   | <p>For GMP Rapid Mixer Granulator as described above with<br/><b>250ml (20gm to 50gm),</b><br/><b>1lit (100gm to 250gm),</b><br/><b>3lit (300gm to 700GM).</b><br/><b>5lit (400gm to 1kg)</b></p> <p>Capacity in gm = Gross volume x 0.7 (Fill volume) x 0.6gm/cc (Bulk Density):<br/>Including the following:<br/>1. Manual Control Panel<br/>2. Variable frequency starter for the main drive and chopper drive.</p> |
| 2.     | Rs. 3,50,000/-                    | For Mitsubishi PLC and Touchscreen for Control instead of Manual Control Panel                                                                                                                                                                                                                                                                                                                                         |
| 3.     | Rs. 25,000/- per day per Engineer | <b>For Installation &amp; Commissioning</b>                                                                                                                                                                                                                                                                                                                                                                            |
| 4.     | Rs. 25,000/-                      | <b>For Validation Documents comprising of DQ, IQ and OQ</b>                                                                                                                                                                                                                                                                                                                                                            |

## **RMG WITH 3 INTERCHANGEABLE BOWLS OF 250ml/1lit/3lit**

## Terms and Conditions:

**Prices** : Prices offered are net-ex-works Mumbai exclusive of Packing, Carting, Crating, Forwarding, Freight and any other incidental charges will be extra to your account.

**Taxes** : **GST (18%) shall be applied.**
